

KIDCREATE STUDIO™ & Edina Community Education

Why should you sign your child up for an art class? Because art teaches so many things. Math, science, history and creativity are just a few things children learn from art. Best of all, art makes learning fun! Maybe that is why children who participate in the arts are more likely to excel at school. Kidcreate Studio's energized classes offer an exciting format for art exploration. Classes focus on art principles and introduce students to many different kinds of art media. Our goal is to inspire and educate your child in an environment where giggles and grins are encouraged.
