### CLASS OF 2012

### DECILE RANK DETERMINATION

Decile rank is determined by decile groups of ten percent within a students' class. For example, with a senior class of 600 students the first decile include, approximately, the top 60 students' GPA's. The second decile would contain the next ten percent of student GPA's and so forth. The size of the class noted on the high school profile reflects the number of students ranked at the end of the most recent semester when the rank was calculated.

### WEIGHTED AND UNWEIGHTED DECILE RANK

Students are officially ranked by decile at the end of each semester beginning in their 10th grade year. Only Advanced Placement courses taken at Edina High School are assigned a weighted value of 1.2 for purposes of calculating a weighted decile rank. Unweighted decile rank is based on the cumulative GPA of ALL courses taken at Edina High School. Since grades from other schools are not used in computing the grade GPA, transfer students do not receive a decile rank until they have received grades from Edina High School.
