

**EDINA PUBLIC SCHOOLS  
Educational Services Council  
2007-2008 Advisory Committee**

The Educational Services Council served as the district's advisory committee for Curriculum, Instruction, and Student Performance. The council is a group of community members and staff who meet monthly to advise the district regarding curriculum, instruction, staff development, and student performance as well as implementing the state academic standards. This council includes parents, teachers and school district administrators. School site councils are asked to appoint community and staff members to the Educational Services Council. Application to serve on the Council can be made to a school site council by May 1 for a renewable one to three-year term commencing on July 1. For more information contact Dr. Jenni Norlin-Weaver, at the Teaching and Learning Office, 848-3900.
